

Partnership with the Municipality and SHRA in social housing delivery

The EThekwini Municipality social housing programme facilitates the delivery of state-funded rental housing. The Municipality requires the support of private companies specialising in this field. If your company wishes to enter into a partnership agreement with the Municipality please register your interest. A key element of the Municipality's social housing programme is the signing of partnership agreements with social housing delivery and management companies which have been accredited by the Social Housing Regulatory Authority (SHRA) in terms of Social Housing Regulation 3(2). Currently the Municipality has partnership agreements with the First Metro Housing Company (FMHC), the Social Housing Company (SOHCO). Through these partnerships the development and management of a number of social housing projects have begun.

In order to increase the pace and scale of social housing delivery, the Municipality is now seeking to enter into further partnership agreements with SHRA-accredited companies in terms of Section 5(ii) of the Social Housing Act, No 16 of 2008. Non-profit companies, for-profit companies and housing co-operatives that have not yet been accredited by SHRA but wish to do so please register your interests and company profile.

Information and assistance will be provided for application for SHRA accreditation.

Please register all your interests with eThekwini Municipality at Shell House 2nd Floor Human Settlements Department.

For further enquiries please contact Smangele Moloj, Manager: Social Housing, EThekwini

Municipality on Tel: 031 311 3104 or e-mail smangele.moloi@durban.gov.za.
