

EXTENSION OF PROJECT AUTHORITY: CONTRACT 1A-11827 - APPOINTMENT OF DATA MIGRATION SPECIALIST FOR THE REVENUE MANAGEMENT SYSTEM

Notice is hereby given in terms of Section 116 (3) (a) and (b) of the Municipal Financial Management Act that it is the intention of eThekweni Municipality amend Contract 1A-11827, awarded on September 2013 to Highbury Solutions (Pty) Ltd.

Original Scope of the Contract:

Form part of the data migration stream within the Revenue Management System implementation project for an estimated period of eight months. Specifically:

- Prepare migration environment specifically including tools to be used. The tool used in data migration is MS SQL.
- A review of data mapping.
- Design and develop ETL programs.
- Prepare data migration test plan.
- Perform migration unit tests.
- Perform migration validation tests.
- Install migration programs.

Proposed Amendment:

The project Steering Committee has supported a change in the approach to the data migration from a “big bang” migration to a phased migration. This involves the migration of Property and Customer data first as phase 1 followed by the remainder of data once testing and verification of the procedure has been satisfactorily completed.

This has led to the requirement for a longer term engagement and hence an extension to the contract. It is proposed that the initial contract period be extended until 30th December 2014. The local community and interested persons are invited to submit comments or representations to the municipality and in particular any objections to the amended period may be lodged with the Municipal Manager, PO Box 1014, Durban, 4000 by no later than 30th September 2014. For enquiries submit an electronic mail to isquotes2@durban.gov.za
