

PUBLIC NOTICE: Lease Latrine Dehydration and Pasteurization Equipment (LaDePa)

Public notice is hereby given that eThekweni Municipality is planning to lease Latrine Dehydration and Pasteurization equipment (LaDePa) to dispose of ventilated pit latrine fecal sludge over a five year period. Particle Separation Solutions in conjunction with eThekweni are the patent holders of this equipment. The pilot plant was initiated by the City in conjunction with Particle Separation Solutions in 2010 to develop this plant. Particle Separation Solutions is the major shareholder of the patents due to existing patents on 90% of the plant. The City stands to financially benefit from the leasing of this equipment due to the abnormally high costs of Fecal Sludge disposal to hazardous landfill sites.

The public hereby is invited to forward any written comments/representations or setting out objections and the grounds thereof to the undersigned.

Representations or objections to the leasing of the LaDePa plant for a period of 5 years shall only be considered if:

The full names, identity numbers and physical address and contact details of the author is recorded thereon, the interest of the author is recorded fully, the grounds thereof are set out in detail and is lodged with the undersigned at the Tender Box located on the Ground Floor, City Engineers Building, 166 KE Masinga Road not later than 11:00 on Friday, 26 September 2014. Should the author fail to comply substantially with the criteria above, the representation and/or objection maybe regarded by the eThekweni Municipality as invalid.

Mr S Sithole
City Manager
