

PRELIMINARY STUDY FOR RIVERTOWN COLLECTION STORAGE FACILITY

Address: Various

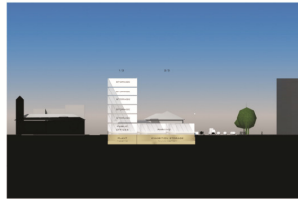

Ward: 26+28

Client: Arts, Culture, Libraries and Heritage

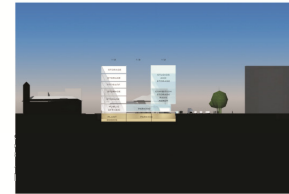

Contract Period: Sept 2015 – Present

Contract Value: R240million

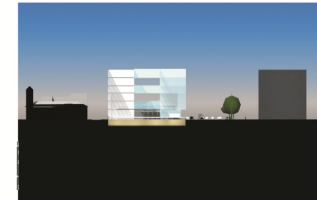

The Architecture Department was requested by Arts, Culture, Libraries & Heritage to conduct a feasibility study for accommodating the various art and artefact collections located around the city into a contemporary Storage Collection Centre. Part of the scoping document referred to it being located within the Rivertown Precinct but this should not be a determining factor. Use of municipal owned buildings and land should be given primary consideration.
